Researcher ID: E-3867-2012

Google Scholar ID: Mohd Zulkifli Abdul Rahim

Scopus ID: -

Specialisation:

Occupational Therapy; People with Disabilities; Children with Disabilities

Research Interest:

Rehabilitation;
People with Disabilities;
Children with Disabilities;
Employment for people with intellectual disabilities
Innovations for people with disabilities.

Research Recognition and Achievements:

Editorial board of The International Journal of Child Development and Mental Health, CDMH Journal

Available Postgraduate Research Topics:

1. The effect of early stimulation therapy towards brain growth among high risk and cerebral palsy infants using early developmental stimulation module.
2. The impact of economic transformation program for people with intellectual disabilities through supported employment training module.
3. The prototype testing of Portable Electric Scooter (PES) for people with physical disabilities.
